Senior Project Manager – Flight Systems_Madrid (M/F)

Ref.^a T202104

Our client is a space systems engineering company, delivering advanced design solutions and turn-key space SW systems. Building on a solid team of highly motivated and specialized engineers, is now a reference player in the European space sector, leading in the areas of Mission Analysis, Guidance, Navigation and Control, Global Navigation Satellite Systems Technologies, Ground Segment Systems and Earth Observation applications.

We are selecting a Senior Project Manager to be integrated in the Spanish branch of the Flight Systems Business Unit to support new growth in the Flight Engineering application area. The work of the Flight Engineering application area includes activities in the areas of Mission Analysis, Flight Mechanics, GNC/AOCS, OBSW and Avionics. This covers a diverse range of applications, from interplanetary missions to Earth Observation satellites and missions, to launch and entry atmospheric vehicles, as well as the associated research, technology development and programme application and commissioning.

The position implies significant responsibility at the management level in the Flight Systems Business Unit, which is composed of multiple Competence Centers:

- System Engineering and EO Mission Analysis
- Mission Analysis and Navigation
- Atmospheric Flight
- GNC and AOCS
- Embedded Systems

Location: Madrid, Spain

Main Accountabilities:

The following types of responsibilities are envisioned, to be progressively planned and allocated to the candidate:

- Coordination of programmes and projects with the head of Flight Systems, and the heads of its Competence Centers and Application Areas
- Project Management of activities within the Flight Engineering Application Area, with application to the domains of Mission Analysis, Flight Mechanics, GNC/AOCS, OBSW and Avionics
- Leadership of activities (projects and proposals) within the Flight Engineering Application Area, including financial and team management
- Support to commercial actions for the Spanish branch of the Flight Systems Business Unit

If you meet the above requirements, please send your application via email: careers@qsr.consulting with reference to T202104_PRO_Senior Project Manager – Flight Systems_Madrid (M/F).

Requirements & Qualifications:

Education: Aerospace/aeronautics MSc/MEng degree or PhD, or related (e.g.: Physics, Mathematics).

Professional Experience:

Required: Project Manager with a demonstrated solid technical background in the Aerospace Sector and in management of projects and teams, with at least 5 years of experience.

Desired: 10+ years of experience in project/programme management, including technical management, in the aerospace sector; experience with inter-disciplinary projects and their development through to product/system qualification. The position will be tailored to the level of experience.

Technical Requirements:

Required:

- Demonstrated background in project management
- Excellent team management skills
- Solid technical background in the aerospace field, in areas such as: mission analysis, flight mechanics (orbital, atmospheric), avionics and GNC/AOCS

Desired:

- Knowledge of the European aerospace and/or defence sector
- Knowledge of satellites applications, launch systems, or planetary entry systems (capsules, lifting bodies...)
- Software engineering methods and techniques
- The space programme development cycle, from phases O/A to D/E/F
- Experience in flight experiments and post-flight analyses
- Experience with project management tools (e.g. JIRA), agile development cycles, and CMMI

Languages:

- High level of English, both spoken and written

If you meet the above requirements, please send your application via email: careers@qsr.consulting with reference to T202104_PRO_Senior Project Manager – Flight Systems_Madrid (M/F).

Personal Skills:

- Initiative and autonomous
- Advanced presentation and reporting skills
- Capability to lead a team from different cultural backgrounds and geographical locations
- Capability to solve complex problems
- Responsibility towards the customer and colleagues

Offer:

Wage package appropriate to the presented experience

Career development opportunity

Contract established directly with the client

If you meet the above requirements, please send your application via email: careers@qsr.consulting with reference to T202104_PRO_Senior Project Manager – Flight Systems_Madrid (M/F).
