

## Ref. T201904\_Product Assurance (M/F)

### **Location:** Bremen, Germany

Our client, German Space SME specialized in satellite propulsion components and systems development, manufacture and integration, located near Bremen (Germany) is looking for a Product Assurance.

### **Responsibilities:**

Ensure adherence to Internal, ECSS and MIL standards as well as compliance to Safety and Cleanliness work (including Clean Room). Organization of all the work related to Product Certifications. Assess reliability, availability, maintainability and safety. Support testing activities and work with project teams through issues resolution, especially management of Non-conformances and the need to issue Requests for Deviation/Acceptance and Waivers. Together with project managers accompany incoming inspections.

Extensive work on documentation production such as:

- Production of Product Development related documents such as the control plans, development plans and Risk Assessment/Management Plans
- Production of Process Assurance documentation (qualification plans and test reports).
- Production of product configuration related documentation such as the CIDL, ABCL, MIFC, Technical and functional Specifications,
- Review of documents such as Critical Items List (CIL), Declared Materials, Parts and Processes List (DMPPL), as well as the Interface control document and other technical drawings.

### **Requirements & Qualifications:**

- **Education:** BS in Engineering (Aerospace, Mechanical, Materials); MS preferred;
- **Previous Experience:** One or plus years of PA/QA job experience. Previous PA tasks in fields such as Space, Aeronautics or Defense are preferred. As an option experience in quality control in the automotive field can also be counted (though less preferred). Knowledge and experience in test methodologies are preferred in hydraulic pressure components;
- **Software/MS Office Suit:** Skilled in computer office applications such as Excel, Word, Project and Visio;
- **Languages:** Strong skills in English, both spoken and written (Min. C1 equivalent required). German skills are preferred;
- **Personal characteristics:** Detail oriented, time management and prioritization skills;
- **Flexibility:** Availability for travelling to support project meetings, suppliers auditing, etc... European Drivers license required.

### **Offer:**

- Wage package appropriate to the presented experience;
- Career development opportunity;
- Contractual link established directly with the client;
