Technical Manager (M/F)

Ref.^a T202009

Our client provides advanced design solutions and turnkey software systems for the Space industry. Based on a solid team of highly motivated and specialized engineers, the company is today a reference in the European Space sector. The company focuses on the design of systems for Space and the development and validation of operational software systems, in the areas of Global Satellite Navigation Systems (GNSS) Technologies, Mission Analysis, System Engineering, Guidance, Navigation and Control (GNC), Attitude and Orbit Control Systems (AOCS), Ground Segment Systems, On board Software Systems and Information Systems.

The company is hiring a Technical Manager, having as main objective the Technical Leadership of innovative solutions in the scope of Earth Observation System Support Frameworks.

Location: Lisbon, Portugal

Main Accountabilities:

Maintenance and Evolution of End to End system support frameworks, having ESA (European Space Agency) and its future Earth Observation Missions (FLEX, BIOMASS, FORUM) as main customer. The work will be performed in close cooperation with the final customer, so a great degree of autonomy and pro-activity is expected in coming up with solutions that meet the customer needs.

Requirements & Qualifications:

- MSc in SW Engineering or related disciplines;
- Minimum of 5 years' experience in development of complex SW systems;
- Previous experience in EO domain shall be considered an asset;
- Experience in C++ or Java programming;
- Experience in agile software development;
- Experience in C++ implementation of complex algorithms or Java Rich GUI development (Eclipse RCP, SWT and preferably also SWING);
- Languages Skills: highly fluent in English, verbal and written.

If you meet the above requirements, please send your application via email: careers@qsr.consulting with reference to T202009_PRO_Technical Manager (m/f)

- Personal Skills:
 - Excellent communication;
 - Networking and team working skills;
 - Motivation in developing innovative software.

Offer:

- Wage package appropriate to the presented experience.
- Career development opportunity.
- Contractual link established directly with the client.
- Work in highly innovative projects with ESA (European Space Agency).

If you meet the above requirements, please send your application via email: careers@qsr.consulting with reference to T202009_PRO_Technical Manager (m/f)
